

K-LOVE serves the residents of Clay County (of which I am a resident) on 103.1, 96.3, and 88.1 and surrounding counties of Southeastern KY. in a way no other radio station does with its family-friendly programming my family has come to love and depend on. K-LOVE supports wholesome values and has a positive and encouraging impact on communities all across America. It would be devastating if K-LOVE were to be displaced by an LPFM broadcaster providing other programming! With so many negative influences on radio, TV, movies, DVD's, the Internet, etc., it is in the best public interest, especially our children and grandchildren's to keep positive, encouraging, K-LOVE as it is on the current FM translator service. Thank you for letting me express my opinion. In Prayer, Thom Denman
